

JobsGroup.net are an Online Recruitment Site (Jobsite / Job-board). As such it is absolutely critical to the Business to have as close to 100% up-time as humanly possible.

Microtech's stable environment has contributed to our up-time objective being achieved since moving from our former ISP.

JobsGroup.net purchase hundreds of domain names as the company grows and launches more Industry Specific Recruitment Sites.

We started using Microtech for domain names, DNS etc... and have made substantial savings on domain costs. From purchasing through to administering the domain the process could not be easier – it was also refreshing to hear a human's voice - and English to boot! – should we require assistance.

JobsGroup.net utilize Microtech's mail servers to disseminate our 15, 000+ daily 'jobs-by-email' service to those subscribed.

We also use Microtech as our MX2 – should our mail servers experience an outage in-house our mails are delivered safely to Microtech until we are back online.

Thank you Paul Smith and the Microtech Team, your customer service and professionalism has not been overseen and we would not hesitate to recommend your services.

Mark Hepworth (-Managing Director - [JobsGroup.net](http://www.JobsGroup.net))
